

ABOUT US

Voltapex Power stands as a premier manufacturer of servo voltage stabilizers, boasting over 40 years of industry experience. We offer an extensive range of servo voltage stabilizers, with capacities ranging from 10 KVA to 20 MVA, and we remain at the forefront of this sector.

India's leading manufacturer of servo voltage stabilizers for industrial and export applications offers precision-engineered solutions ranging from 5 kVA to 5 MVA. These stabilizers are available in both single-phase and three-phase, as well as air-cooled and oil-cooled options. For over four decades, they have been safeguarding critical industrial assets with $\pm 1\%$ accuracy and 98% efficiency.

CONTACT US

For inquiries or more information on our servo voltage stabilizers, please contact Voltapex Power. Our dedicated team is ready to assist you with all your needs.

VOLTAPEX POWER

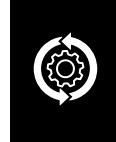

VoltApex Power, a leading servo voltage stabilizer company since 1983, provides reliable power solutions through innovation, ensuring stability and efficiency in diverse applications.

OUR SERVICES

India's Leading Servo Voltage Stabilizer Manufacturer for Industrial & Export Applications

Precision-engineered servo voltage stabilizer from 5 kVA to 5 MVA — available in single phase and three phase, air-cooled and oil-cooled models. For over four decades, they have been protecting critical industrial assets with $\pm 1\%$ voltage accuracy and 98% operational efficiency.

- 40+ Years of Engineering Excellence
- Over 5000 Industrial Installations
- $\pm 1\%$ Voltage Accuracy
- 98% Operational Efficiency

Hamza Khan Director at VoltApex Power

WHY CHOOSE US

Expertise in providing industrial solutions ranging from 10 kVA to 10 MVA, ensuring stable output with a wide input voltage range. Equipped with advanced protections such as high/low cutoff, overload, SPD, and single phasing, these systems are custom-built to meet specific requirements. They feature durable, high-quality components, fast delivery, and reliable support, all offered at competitive pricing.

“AT VOLTAPEX POWER, WE DON'T JUST STABILIZE VOLTAGE—WE POWER INDUSTRIES WITH RELIABILITY THEY CAN TRUST.” – HAMZA KHAN

POWER. PRECISION. PERFORMANCE.

Hamza Khan, Director at VoltApex Power, prioritizes performance and high quality.

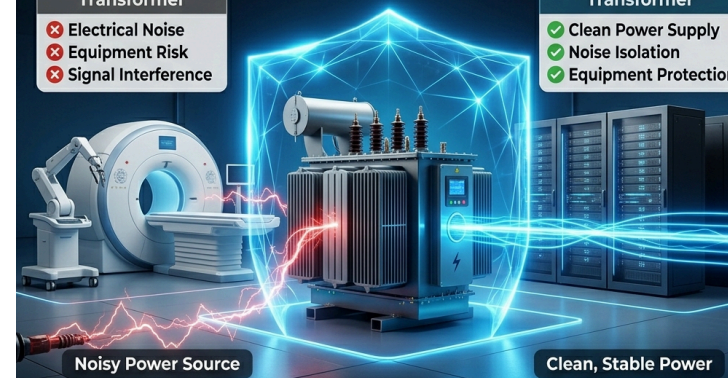

Your Equipment Isn't Failing... Your Power Is.

Without Isolation Transformer

- ✗ Electrical Noise
- ✗ Equipment Risk
- ✗ Signal Interference

With Isolation Transformer

- ✓ Clean Power Supply
- ✓ Noise Isolation
- ✓ Equipment Protection

Noisy Power Source

Clean, Stable Power

VOLTAPEX POWER

Isolation Transformers for Critical Applications

Data Centers | Hospitals | IT Infrastructure

Custom Built Industrial Solutions

Serving India | Middle East | Africa

NEVER EVER COMPROMISED WITH QUALITY

We specialize in providing industrial solutions ranging from 10 kVA to 10 MVA, ensuring stable output across a customizable input voltage range. Our systems are equipped with advanced protective features, including high and low voltage cutoffs, overload protection, surge protection devices (SPDs), and single phasing preventers. Designed to meet specific requirements, these systems incorporate durable, high-quality components and are engineered for swift delivery and reliable support, all offered at competitive prices.

OUR CLIENTS:

WE HAVE SUCCESSFULLY SERVED ESTEEMED ORGANIZATIONS LIKE THE INDIAN ARMY, DRDO, INDIAN RAILWAYS, BHARAT PETROLEUM, HINDUSTAN PETROLEUM, INDIAN OIL CORPORATION, NTPC, TATA STEEL, LARSEN & TOUBRO, AND BHEL, ALONG WITH VARIOUS OTHER INDUSTRIAL AND GOVERNMENT CLIENTS THROUGHOUT INDIA. WE HAVE NEVER COMPROMISED ON QUALITY.
